CEO Message

I have had the pleasure of building WriteBest for the past 35 years with a committed and enthusiastic team. Looking back, I'm very proud of how WriteBest has grown. It hasn't been an easy journey, but with the help of so many people, WriteBest has successfully thrived and got to where we are today.

On behalf of all of us at WriteBest, I would like to extend our gratitude to all customers and suppliers for the continuous support and trust for these many years. This has motivated us to improve faster and further than anyone else.

Every day is a new lesson and a new challenge for us. We can promise that we are not here to be complacent but to strive for continued excellence for the company's future. The next step forward is to achieve the highest level of automation, where we incorporate and integrate technology to help us grow further in the visual communication industry.

I'm confident that WriteBest will soar higher in line with our mission to rise as one with great mutual respect and teamwork in the next generation's leadership. Let's not be afraid to aspire to greatness and continue the WriteBest legacy.

“活到老，学到老” is a saying that has guided me throughout my journey building WriteBest. It is a reminder to always strive to be better, and to learn and listen without end.

YONG YOON MING 杨永明
CEO of WriteBest Group

Write your best future.

Beyond the Boards

WriteBest began with a simple belief: the right tools help people think, plan, and communicate effectively. With over 35 years of experience, we've grown into Malaysia's leading visual communication manufacturer, serving clients and partners worldwide.

Every space where people gather to learn, plan, or exchange ideas depends on a surface that allows thoughts to take form. WriteBest designs and manufactures visual communication tools that support these moments, providing reliable solutions for classrooms, offices, studios, and shared environments.

“For decades, our focus has remained constant: crafting products that combine durability, clarity, and purpose.”

From our beginnings as a whiteboard manufacturer, WriteBest has grown steadily, expanding our range of products and solutions to meet the evolving needs of modern spaces.

We approach design with responsibility and intent. Our surfaces perform consistently, our structures last, and our systems adapt to changing needs, ensuring products remain clear, stable, and dependable through daily use.

Our Vision

We envision spaces that inspire learning, creativity, and collaboration, where ideas flow freely and solutions emerge naturally.

Our Mission

At the core of WriteBest is a commitment to support growth in individuals, teams, and communities. We enable learning, innovation, and communication by providing tools that are practical, reliable, and thoughtfully designed, reflecting our standards of performance and craftsmanship.

Recognition

WriteBest has received numerous recognitions, including Superbrands Status, Golden Bull Awards, Golden Eagle Awards, and Asia Pacific Golden Crown Awards. We also hold a Product Certification License for Vitreous & Porcelain Enamel Coating applied to steel for writing surfaces, certified by SIRIM QAS International Sdn Bhd.

Value that Matters

Create a Community

We build meaningful relationships with our customers by understanding and delivering what matters most. We also collaborate closely with our business partners, fostering trust and long-term growth that benefits everyone.

Innovate the Future

We embrace progress by exploring automation and digital solutions that enhance productivity and efficiency. Through thoughtful innovation, we create systems that are sustainable, forward-looking, and built to evolve.

Nurture the Next Generation

We see every opportunity as a chance to grow, learn, and push boundaries. By cultivating curiosity, humility, and passion, we empower individuals to develop their potential and continuously expand their skills and perspectives.

Encourage an Adaptable Team

We foster a collaborative environment built on mutual trust, respect, and shared ownership. By supporting one another and embracing change, we stay agile, motivated, and aligned in achieving both individual and company goals.

e³ CeramicSteel: Made to last, the most popular writing surface

The PolyVision e³ CeramicSteel and Hygienic CeramicSteel are the most popular writing surfaces for chalkboards and whiteboards, delivering superior writability, durability and erasability. Made for busy offices and boisterous classrooms, they offer a super-smooth surface that erases like magic, scratch, stain and fade resistant, guaranteed.

Superior and Sustainable Surfaces

Our whiteboard material is highly impermeable. It can be written on with dry-erase, semi-permanent, water-soluble or permanent marker, chalk, pen or crayon without damaging the surface.

Dry erase ink wipes off easily with a dry cloth or eraser, while semi-permanent or permanent inks can be removed with a solvent-based cleaner. The ultra-smooth surface, also suitable for projection, lets markers glide effortlessly, eliminating ghosting and improving erasability.

Sustainability is at the heart of e³ CeramicSteel. Designed to stand the test of time, the surface reduces the need for replacements, minimising waste and lowering long-term environmental impact. Its responsible manufacturing process mean it is as kind to the planet as it is to the spaces it inhabits, a surface you can feel good about choosing, for years to come.

Features & Benefits

Good eye care

- Minimal surface and light distortion
- Enhanced visibility and optimum eye comfort
- Projector friendly

Efficient & easy to use

- Smooth, non-porous writing surface
- Optimum erasability — no staining
- Greater colour contrast

Low maintenance

- Standard and premium colour finishing available
- Colourfast — colour will never fade

Environmentally friendly

- Safe and clean: Cradle to Cradle Certified™ Bronze
- 99.9% recyclable
- No VOCs — releases no harmful chemicals

High resistance

- Scratch, fire, chemical and graffiti resistant
- Inhibits growth or reproduction of bacteria
- Optional Hygienic additive that keeps the surface clean

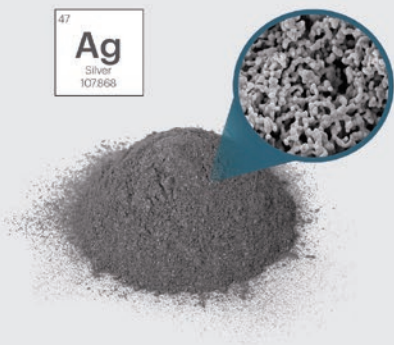

**25 years warranty
on the surface**

How does Silver Ion technology work?

Silver ions are used in a variety of medical and non-medical products as well as clinically tested skincare products. These silver micro particles slowly release silver ions over time and will actively work to keep the surface clean for the lifetime of the product. This makes it ideal for use in demanding environments where cleanliness is vital.

The Hygienic CeramicSteel surface stays clean and is sanitary making it an ideal application for a variety of public spaces such as schools, workplaces, airports, public restrooms, healthcare facilities and more.

Hygienic CeramicSteel: All the benefits of e³ CeramicSteel, now with advanced antimicrobial protection

PolyVision CeramicSteel has always been bacteria-resistant by nature. Its smooth, non-porous and scratch-resistant surface leaves nowhere for germs to hide, making it a naturally clean and hygienic choice from day one.

The Hygienic CeramicSteel takes this further with silver microparticles embedded into the surface, actively working to keep it clean around the clock. Tested and certified to ISO 22196:2011 and ISO 21702:2019.

Additional Antimicrobial Features

- Eliminates bacteria and viruses on the surface within 24 hours
- Silver particles are safe, odourless, colourless and non-transferable
- Resistant to scratches and harsh cleaning solution
- Environmentally safe
- Inorganic, smooth and non-porous surface

Eco Technologies

Honeycomb Board

WriteBest Writing Boards' core is mostly made with Honeycomb Board as a plywood replacement. Because it is made of 100% recycled paper, the honeycomb board is eco-friendly and biodegradable. Its hollow geometry structure and minimal use of material also make it lightweight, strong, and cost-effective. Honeycomb Board has high impact resistance because its geometry provides greater rigidity and helps distribute weight evenly. This makes it extremely strong, allowing it to endure pressure and perform better than many standard solid cores.

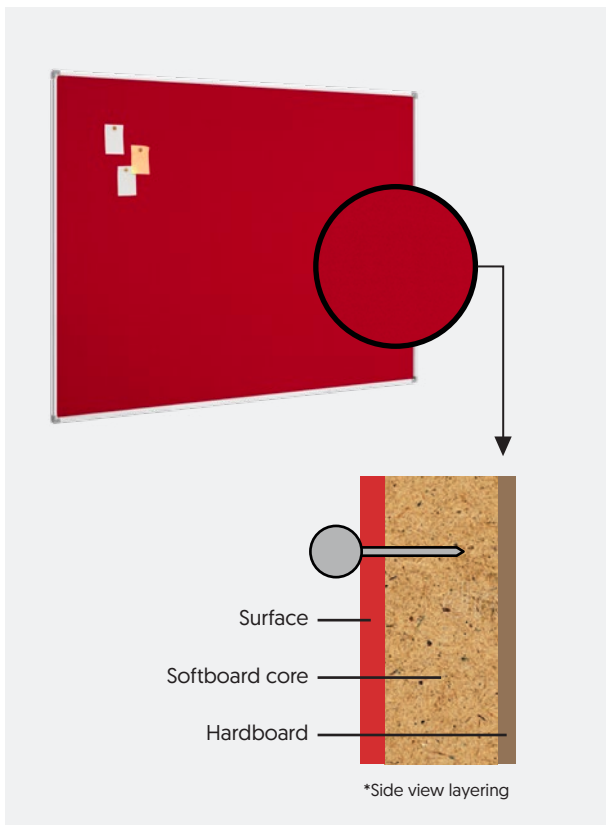

Eco-friendly

Honeycomb Board is made of 100% recycled paper cores and is biodegradable.

Strong

Honeycomb Board can endure more pressure and performs better compared to a standard solid core.

Soft Density Fibreboard

WriteBest Notice Boards are made from several materials to achieve a high-quality core for smooth gliding and a fully secure pinned memo. The soft density fibreboard core complies with the Forest Stewardship Council's strict requirements which endorse environmentally appropriate, responsibly made products. By using WriteBest Notice Boards, we are making a significant contribution to our climate. Imagine this, each year, one tree could absorb approximately 21 kg of carbon dioxide and produce 117 kg of oxygen.

It is part of our responsibility to lead by example to embrace environmentally friendly products and implement eco-friendly technology.

100% Natural Wood Fibre

Manufactured without glue or chemicals, the fibreboard relies solely on the wood's natural resins for binding.

Biodegradable & Recyclable

Fibreboards are biologically clean and offer an ecologically safe alternative.

Why WriteBest

Excellent Service

We are passionate about listening to our customers' needs and believe in going the extra mile as providing exceptional service is our top priority.

Custom-Made Products

We can shoulder any technical creation that would suit our clients' requirements. We take pride in our vast understanding of products and the ability to do it at reasonable prices.

Quality Assured

We are accredited with ISO 9001:2015 certified by DASA Certification Quality Management System and Product Certification by SIRIM QAS International. [Prev. ISO 9001:2000 / ISO 9001:2008]

Efficient Delivery

We prioritise work orders and planning. This has become essential for us to increase production and service delivery efficiency.

Writing Board Solutions

Communication is at the heart of every productive environment, and the right writing surface makes all the difference. Our Writing Board collection is built around that belief, offering a carefully curated range of boards designed to support the way people actually think, teach, and collaborate. From busy open-plan offices to structured classrooms and creative studios, each board in the range has been developed to meet a specific set of needs without compromising quality.

We offer writing surfaces in a wide variety of materials, frames, and formats. Choose from smooth tempered glass for a premium, contemporary finish; classic chalkboards for spaces that embrace a more traditional aesthetic; or our popular magnetic whiteboards available in aluminium, solid wood, and curved Mono frames. Whether wall-mounted for a permanent installation or paired with a matching stand for flexible repositioning, every board is engineered for durability and ease of daily use.

Beyond the board itself, we offer a range of maintenance essentials, from whiteboard cleaners to peel-off erasers, to keep surfaces performing at their best, alongside add-on accessories like magnetic clamps and flip chart pads to enhance usability.

Classic Whiteboard

Standard Whiteboard

Aluminium frame

Safety corner caps

Foldable pen tray (50 mm)

Aluminium frame (17 mm)

Built for the rhythm of daily classrooms and busy offices, this aluminium-framed whiteboard pairs a durable writing surface with practical mounting flexibility. Safety corner caps and adaptable sizing make it suitable for both teaching spaces and team meeting rooms.

Frameless Glass Board

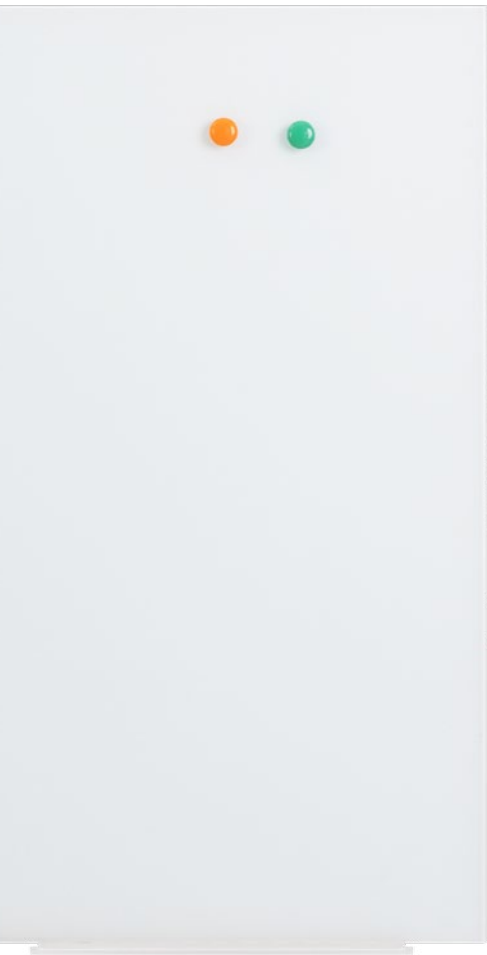

Glass Board with Chrome Frame

Glass Boards bring a level of clarity and presence to any room that other surfaces simply can't replicate. Precise enough for the most detail-driven sessions, refined enough for the most design-conscious spaces. They sit where serious functionality meets considered aesthetics, without having to choose between the two.

Glass Board

Frameless or chrome frame

Smooth tempered glass takes your workspace to another level. Magnetically functional, beautifully frameless, and built to last. The frosted backing improves marker visibility while the sleek profile elevates any contemporary office or collaborative space.

Deluxe Flip Chart

Flip Chart

There's a reason flip charts remain a staple in training rooms, conference spaces, and creative workshops worldwide. Nothing beats the simplicity of a large, blank page and a good marker. Our Flip Chart range spans from compact tripod models for presenters on the move to executive-grade stands with wide writing areas and extendable arms. Each is designed to support clear idea sharing and confident presentations from start to finish.

Deluxe Flip Chart

Built for performance, this Deluxe Flip Chart stands confidently at the front of any room. Its sleek profile and durable structure project the kind of reliability that suits important presentations and team workshops.

Features

- Coated Steel magnetic surface
- Stable structure with lockable castors
- Adjustable height
- Full-length curved pen tray

Creative Board

Board System

When a single board isn't enough, our Board Systems are designed to scale with you. Featuring horizontal and vertical sliding configurations, foldable wing panels, and bespoke options tailored to your interactive board or room dimensions, these systems transform ordinary wall space into dynamic, multi-surface presentation environments, ideal for lecture halls, training centres, and any space where structured knowledge sharing is a daily requirement.

Creative Board System

Horizontal sliding whiteboard

Reveal information strategically, guide your audience through ideas step by step, this horizontal sliding board system makes presentations dynamic and engaging. Sliding panels conceal or expose content on cue, adding visual impact to every session.

Notice & Display Solutions

Information doesn't just sit, it moves, evolves, and occupies space. This category explores how surfaces can support communication while shaping the environment around them.

Notice boards offer an open, adaptable platform for everyday use, ideal for team updates, working walls, or informal sharing points in studios, offices, and back-of-house areas. They invite interaction, allowing content to be pinned, replaced, and reworked as ideas develop.

Display panels extend this function into a more spatial role. Used as exhibition systems or partitions, they help define zones while carrying visual content, whether for showcasing work, guiding movement, or creating moments of focus within larger spaces. Mobile formats add another layer of flexibility, enabling layouts to shift effortlessly between events, presentations, or evolving project needs.

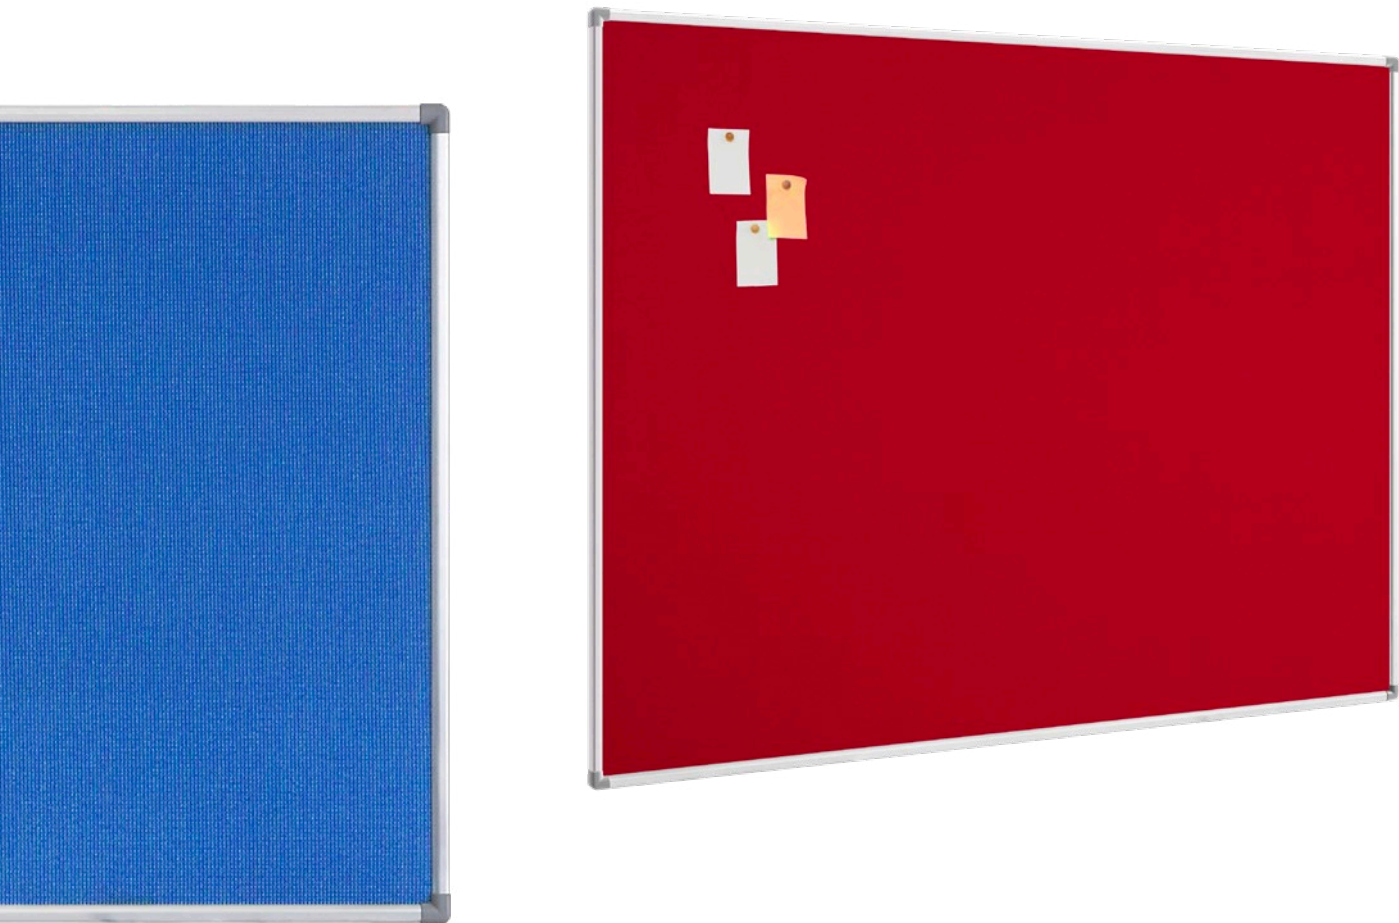

For more controlled environments, enclosed displays provide structure and protection, keeping information intact while maintaining clear visibility, suited for public areas, corridors, and formal settings.

By considering how information is presented, open or protected, static or mobile, these systems become more than utilities. They act as tools for organisation, storytelling, and spatial definition, supporting the way people interact with both content and place.

Standard Notice Board

Aluminium frame

Display information your way with a notice board that comes in a wide variety of surface options. The aluminium frame offers a clean look that holds up well in offices, corridors, and common areas over time.

Lambo Panel

Display Panel

Make every presentation, exhibition, and event count with our modular Display Panel range. From the foldable Lambo Panel to the multi-tiered Smart Folding system, these displays are designed to create professional and visually engaging environments wherever they are used. They offer the flexibility to be configured into a wide range of layouts, giving your brand and content a strong and confident presence.

Lambo Panel

Foldable mobile display system

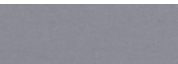

Fold it flat and set it up with ease, the Lambo Panel is designed for quick and efficient deployment. Equally useful as a presentation panel, partition, or event barrier, its foldable design makes it a highly versatile display solution for various environments.

Features

- Foldable for compact storage
- Multi-panel [3/5/7] setup
- Easy to reposition
- Handrail size: 420 [W] x 785 [H] mm

Artiss Drafting Table, Drafting Chair and Cena Plan Hanger Stand

Drafting Equipment

Precision is essential in technical drawing, and our Drafting Equipment range is designed to support it. From angle-adjustable drafting tables to front or top-loading plan hanger stands, every piece is built to support the workflow of architects, engineers, artists, and designers who rely on accuracy and workflow efficiency. Smooth movement, stable surfaces, and thoughtful ergonomics mean your lines stay true, plans stay organised, and your workflow stays uninterrupted.

Artiss Drafting Table

Height adjustable drafting table

DC22

Parallel ruler sold separately

Trusted by architects, artists, and technical professionals for years, the Artiss Drafting Table delivers the precision and angle flexibility that detailed work demands. Adjustable to the drawing angle you need, session after session.

Board Size Guide (W x H) mm

For optimal usability, whiteboards should be installed approximately 700 mm above floor level.

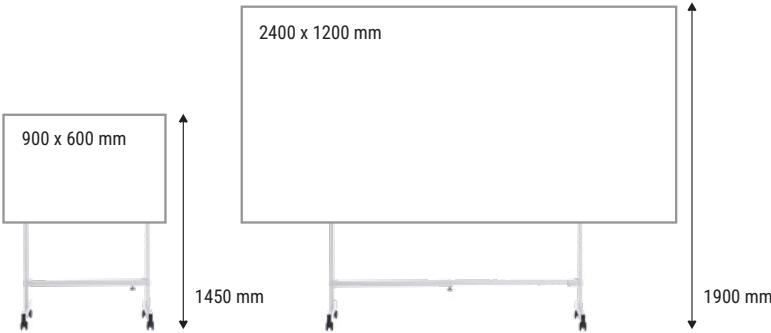

Whiteboard Surface Care & Maintenance

A well-maintained whiteboard surface delivers consistent writing performance and erases cleanly over time. Following a few simple care practices will protect your investment, prevent ghosting and staining, and keep the surface looking crisp session after session.

First-Time Use	Wipe with a microfibre cloth dampened with a 30% isopropyl alcohol / 70% water solution to remove protective film residue.
Daily Cleaning	Use a whiteboard eraser for daily cleaning. To clean further, wipe with a damp microfibre cloth with water and follow up with a dry wipe.
Deep Cleaning	For deeper cleaning, apply 30% isopropyl alcohol / 70% water solution onto a microfibre cloth and wipe the surface. This may be done up to twice a month.
Eraser Care	Tap eraser regularly to release dried ink. Replace it or peel off the top layer when the erasing surface becomes dirty.
What to Avoid	It is best to avoid permanent or oil-based markers, abrasive sponges, steel wool, adhesive tapes, and sharp objects on the surface.

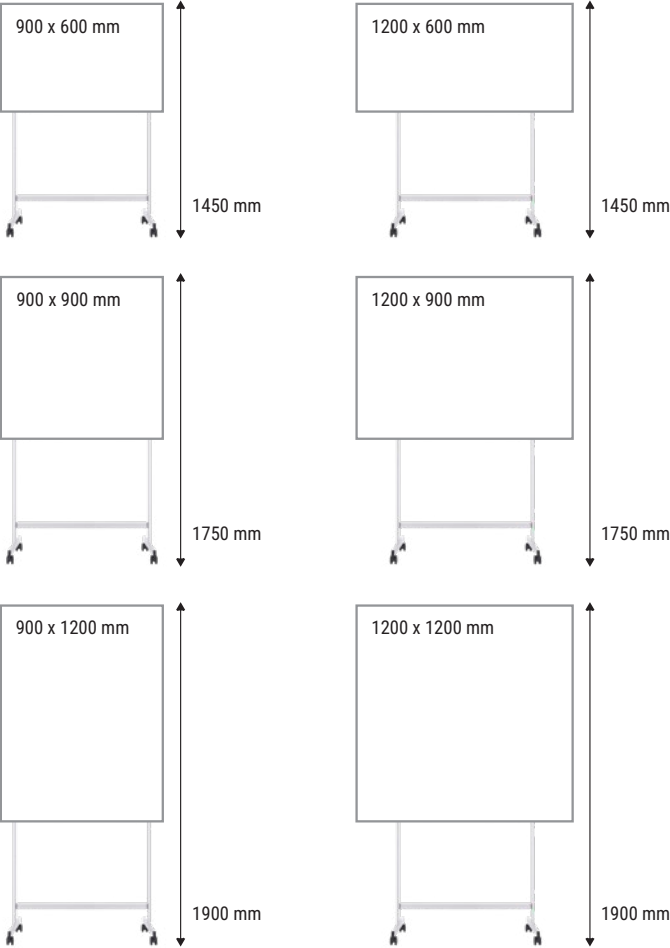

Whiteboard Stand Size Guide

WB123 Stand Compatible board sizes

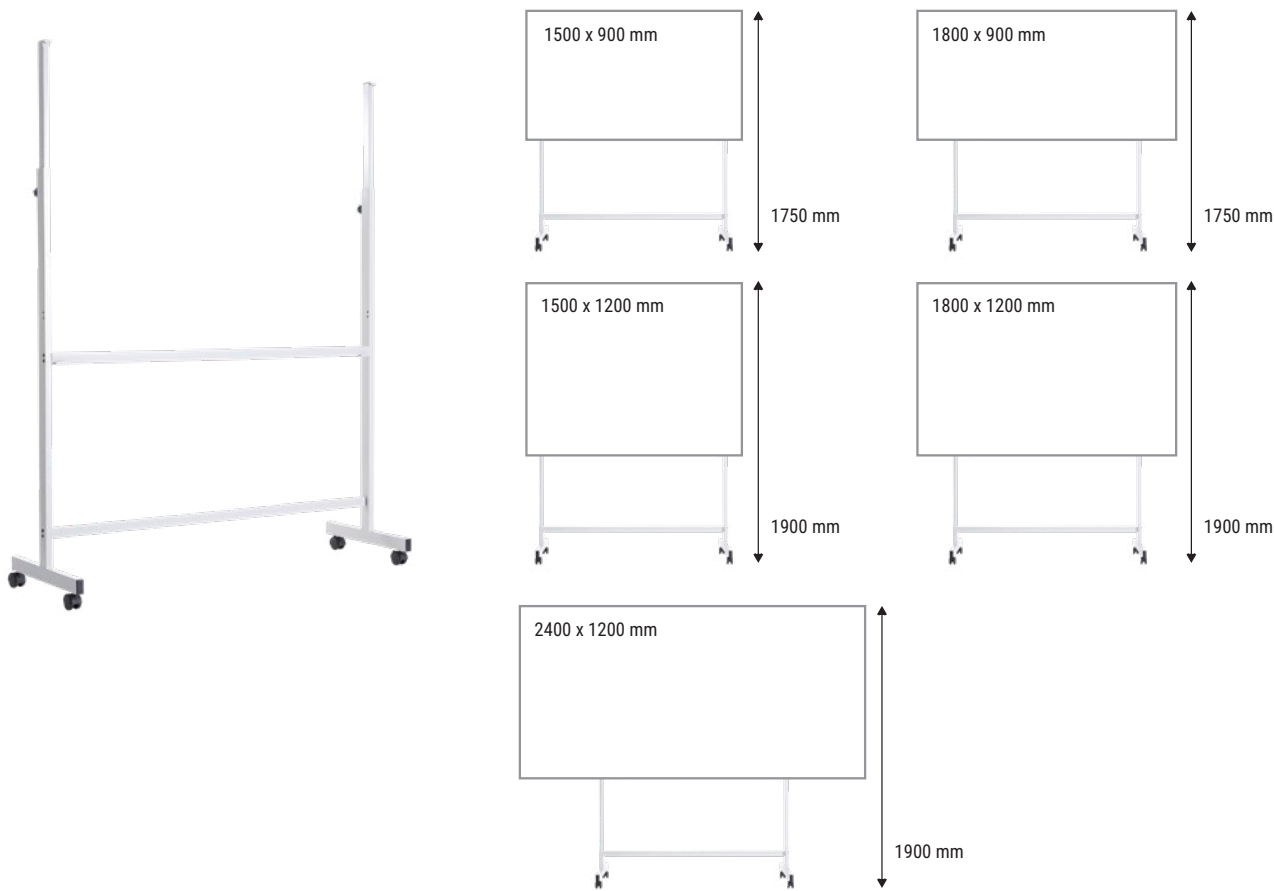

WB123 Stand fits board sizes between the width of 900 mm to 2400 mm and height of 600 mm to 1200 mm. Its height and width are adjustable.
